Industry Endorsements

Course overview

Kick-start your career confidently in different roles within the construction industry from the planning and design stages to development, construction, and operation.

Acknowledge Education's Bachelor of Construction Project Management equips you with the job-ready skills and knowledge in managing residential, commercial and industrial construction projects. You will develop skills in the construction management, quantity surveying and property development.

You will graduate with skills in:

- Construction management
- Construction technology
- Quantity surveying
- Construction law and contracts
- Building services, surveying and sustainable practices
- Cost and quality management

Course structure

To be eligible for the Bachelor of Construction Project Management, you are required to acquire 24 units (360 credit points) as prescribed in Units section.

You will study 3 units per trimester, with most units comprising of three hours of lecture and tutorial per week. You will also undertake 10 hours of personal study per unit per week. The number of days per week depends on your timetable and it would be 2-3 days.

Pathways

On successful completion of Acknowledge Education's Diploma of Civil Construction Design or Advanced Diploma of Civil Construction Design (Diploma pathway), you are eligible for direct entry into the second year of the Bachelor of Construction Project Management degree with credit for 8 out of the 24 units of study.

Course outcomes

- Construction Project Manager
- Quantity Surveyor
- Site Manager
- Construction Planner
- Contract Administrator
